## 👤 PROFILE

Solutions oriented, always with a strive to evolve and work forward both with my career and my relation to customers, coworkers and partners. I enjoy being where it all happens and to contribute to making progress. My philosophy is to always leave the workplace as a better place than what it was when I arrived.

## 🎓 EDUCATION

### MSE in Applied Physics and Electrical Engineering, Linköping University, Linköping

August 2020 — Present

- **M.Sc. in Machine Learning and Data Science**  
August 2023 — Present
- **B.Sc. in Electrical Engineering**  
August 2020 — June 2023

### Natural Science and bio-medicine, Nacka Gymnasium, Stockholm

August 2015 — June 2018

## 📁 EMPLOYMENT HISTORY

### Teaching assistant at the Department of Computer and Information Science (IDA) LIU, Linköping

August 2023 — December 2023

- Worked part-time at IDA as a teaching assistant for problem-solving and programming. Responsibilities included instructing students in the programming languages Ada and Python.

### Summer Internship – API Development at Vemendo AB, Stockholm

June 2023 — August 2023

Vemendo AB is a team of solution architects specializing in the development of web applications, system integration, and cybersecurity.

- Assisted Vemendo AB in developing an API and a user-friendly Command Line Interface (CLI) for their Federation services database management.
- Worked extensively with the .NET framework and C# throughout the internship.

## 🎨 EXTRA-CURRICULAR ACTIVITIES

### Graphic Design-Partner at The Y-Sections Student Reception Committee at LiU Y-Fadderiet, Linköping

January 2022 — June 2023

Y-Fadderiet is responsible for the reception for 160 new students of the Y-Sections different programs.

- Worked tightly in a project group for eight months with budgeting, planning and in arranging a two week reception that had a turnover of over 600K SEK, and made sure that the new students had the best start of their university life as possible.
